# INTRODUCTION

Education is one of the most important nation-building pillar and progress, and an integral part of the culture of society and its development. With this in mind came, his Majesty Sultan Qaboos bin Said's Royal Care and keenness about the importance of science and knowledge and the need to Follow up its development by all means available, in a way that contributes to the advancement and progress of Omani citizen.

In order to encourage the sector, the Ministry provides all the necessary facilities, including (financial, material and moral support) to ensure the best educational levels. Beyond any doubt higher education plays a pivotal role in the improvement and progress of any country's system and leads to a comprehensive development. Without advanced and sophisticated system that based on modern science and knowledge, higher education will not be able to meet actively and efficiently the need of the society. Hence, the private higher education sector has proven its ability to provide high-quality output and to achieve harmonization of these outputs on the one hand and the needs of the labour market on the other hand.

Therefore, the General Directorate of Private Universities and Colleges represented by the department of program supervision decided to issue this comprehensive electronic guide for academic programs offered in the private higher education institutions in the Sultanate. It has been designed to facilitate the task of students and those who are interested in academic path in making the right selection of academic, scientific and future career routs.
